

PARTNERSHIP'S CHART FOR THE EARTH FESTIVAL

Preamble

The Festival : The Earth Worldwide Festival is a global manifestation whose long term vision is to have a collaborated effort of events taking place in all the countries of the world focusing on the following principals:

- Protection of the planet
- Solidarity between Human Beings
- Peace between nations

The Festival wishes to build, with its partnering countries, a program of events during the week of the summer solstice. The heart of the Festival will take place over 7 days with other activities leading up to and following the 7 days.

Each country is a co-organiser of the Earth Festival and organizes its own National Festival. It is also invited to participate in the international events.

Terralliance Association, French non profit NGO created in 2004, is the main organizer of the Earth Festival. It's mission is to: work towards the Protection of the Earth and its humanity and to convey the values of Peace, Solidarity, Consciousness and Respect. It hopes to work towards these ends by it's promoting and coordinating the Earth Festival annually through out the world.

The primary mission of the Terralliance Association is inspired by the United Nations Charter and the Declaration of Human Rights, Article 1st which stipulates :

“All men are born free and equals in rights. They are endowed with reason and conscience and must act towards the others in a spirit of fraternity”.

Furthermore, the Terralliance Association considers the opening of and individual's heart and mind as the main element of dialogue between nations, organizations and people, leading the way to synergies and constructive action.

Partnership's Chart

Article 1 : Local Partner and Organizing Committee

In every country participating, the entity in charge of organising the Festival locally is identified under the name of "Local Partner". This Local Partner is the only official contact of the Organizing Committee in the country concerned.

The Organizing Committee of the Festival, made up of members of the French association Terralliance, creator of the Festival, proposes on its Internet site, the events already forecast.

Article 2 : Preliminary Study between the Organizing Committee and the Local Partner

The fundamental criteria established by the Organizing Committee in view of accepting a Local Partner in the Earth's Festival are the following :

- to be a humanitarian organization/association/foundation working in one or more of the 3 main items defined in the preamble.
- To have an experience in organizing national and international events
- To have a good knowledge of national organisations working on the goals of the Festival
- To be free of all religious, political or industrial acquaintance

The Local Partner will be seriously selected in accordance to the criteria above indicated and the recommendations of the local office of UNESCO whenever it exists.

Article 3 : Registration of the Local Partner and respect of charts

The final registration of the local partner is subordinated to the agreement defined in article 2 and an engagement of the two parties to respect the present chart as well as the Chart of Terralliance Association.

Article 4 : Participation

Every country of the world is invited to participate to the Earth Festival. Its participation is absolutely free. Terralliance works with private citizens of France, it's government and it's giving organizations, to obtain the necessary funds. Participation in the festival is at no cost to local or international participating organizations and Local Partners.

Article 5 : Rights and organization modalities of the Local Partner

5.1) Local Organization of the Festival

Each Local Partner is solely responsible for the action, organization and coordination of their Earth Festival and each shall respect the Chart of the Earth Festival and the good intentions and good spirit of the event. If required, each Local Partner and organization can sign any agreements with different participants, without having to inform Terralliance Association.

5.2) National Coordination

In each country participating, the Local Partner commits to select the candidates from the local groups wishing to participate to the Festival, making sure that each one is in accordance to the ethics of the Festival and respect the Chart. This local partner commits himself to coordinate the actions and local initiatives in order to get the best development and best audience for the Earth Festival. He commits himself to promote

locally the International Week of the Earth Festival as well as the events associated. The partners, and sponsor chosen must respect the values of the Festival.

Each group (association, foundation, company, local group) participating to the World Festival of the Earth is identified in France under the label “Creator of Event” (national charter of event creator).

He makes sure also that all activity will be covered by an insurance.

5.3) Worldwide coordination

In case that a worldwide initiative needs the participation of all countries for its success, the Local Partner commits himself to support this global initiative in accordance to his means.

Article 6 : Information and Communication

6.1) Trade mark

The Local partner commits himself to register, in his own country and on the name of his organization, the national trade of the “Earth’s Festival” or the translation in the local language and to keep the Organizing Committee informed of the status of the request of the trade mark. This request of trade mark is essential as it constitutes the guarantee of permanence for the event.

6.2) Commercialization of the trade mark “Earth Festival”

The local partner has all capability to use locally the trade mark of the Earth’s Festival under reserve that he respects the ethics of the Earth’s Festival.

6.3) Information on the web site

The Earth’s Festival takes in charge the expenses of general communication of the Festival. The Official web site ensures the coordination and information of the international events. He collects and registers the proposals of events coming from the different countries.

The local partner makes the information for his own public. Every country is invited to register their own events on the web site.

6.4) Creation of a local web site

The Local partner commits himself to create and run on line within three months from the date of his approval by the Organizing Committee, a web site to present the Earth’s Festival to the national population of the country concerned. This site can use the model and the graphic chart of the main site.

Should this site not be operational three months after the date of selection, the Organizing Committee reserves the possibility to choose another Local Partner for the organization of the Earth’s Festival.
